Failure Tasking

Seasonal Phases

by Laurence Green
vesper.porta@gmail.com

Seasons as a set period of time are fantasy calendars allocated over an annual description.

Horoscopes of tasks as functional SDLC revolves around a teams' actions and ability of tasks.

Relationships within a team are individualistic and social contracts, social SDLC defines constant team action.

Programming a team by a teams efforts supports investment of a social group to integrate and work.

Team desires as actions

Precipitation Object Cr Ta Tasking Object

Grabbing Object Gr Pr Presenting Object

Mothering Object Mo De Destructor Object

Team Filters	Phases	Moons	Targets	Example
--------------	--------	-------	---------	---------

Do	Planning	Deployment	Infidelity Economics Tasking is used to manage creation of tasks and asserting efforts as recorded currency.	Till Soil
Pr	Death	Sine-wave		
Gr	Winter			

Do	Analysis	Deployment	Planting tasks to create prospects within a team as seedings of concepts farms action from a team.	Plant Seeds
Mo	Beard	Heartbeat		
Ta	Spring			

Do	Design	Deployment	Pushed by internal mother to provide fertility from spring seedlings to crop can grow.	Grow Wheat
Mo	Neck	Positive Saw		
Cr	Summer			

Note of Cr: Short for Cry due to PR already taken and suits designers.

Do	Implementation	Maintenance	Describe everything of a task with information needed to complete actions reducing impact of Harvest.	Reap Crop
De	First Floor	Square		
Ta	Harvest			

Do	Testing	Maintenance	Churn of mills powered by engines breaking down to create new ingredients for cooking.	Flour Mill
Mo	Power S	Flatline		
Pr	Winter
